YOUR GLOBAL QA PROVIDER

↑ Your QA data at your fingertips – find out more about myQA® Global QA Software Platform on the next page.

**All-in-One.
All Connected.
All Secure.**

IBA Dosimetry offers a full portfolio of dosimetry equipment tailored to the needs of your particle therapy center.

Our high-end solutions are aimed at assuring treatment safety as well as the most efficient dosimetry and quality assurance.

IBA's unique innovations in the field of PT dosimetry are designed to minimize commissioning and QA times and maximize the number of patients you can treat.

Commissioning

Blue Phantom² and Stingray

→ Your perfect combination for PBS commissioning

Stingray – Large integral chamber for PBS

→ The largest collection area in the market with 12 cm diameter
→ No approximations, even at maximum depth

Machine QA

Zebra – Single-shot bragg peaks and SOBP measurement

→ Save up to three hours compared to a single SOBP reconstruction using a water tank
→ Acquire a full SOBP with a single radiation

Lynx PT – Daily machine parameter verification

→ The finest resolution for spot characterization and machine QA

Giraffe – Single-shot bragg peak measurement

→ Reconstruct the bragg peak for a single spot within seconds

Sphinx – Your daily QA in one shot

→ Gain 20 minutes of QA time: this allows you to treat one more patient each day
→ Automated check and trending in myQA

Patient QA

DigiPhant PT – Fast 2-D and 3-D dose measurement for patient QA in water

→ Unique combination of a water phantom and a MatriXX optimized for your high-intensity PT beam
→ Verify layers for a clinical plan and compare them with the TPS in a single setup

MatriXX PT – Your ultimate high-dose-rate solution

→ Suitable for high-dose-rate cases
→ High spatial resolution: 1,020 ionization chambers

Your Global QA Platform

myQA Platform

All-in-One. All Connected. All Secure.

- Your Global QA Platform grants you easy and perfectly managed data access through your entire quality assurance process.
- Never miss any key information and enjoy quick access to your QA parameters and detailed test results.*
